Address 129 Tottenham Road, London N1 4EA

Simon trained as a designer and started his career as such. A few years ago he expanded his skills by moving over to being an art director and part of a creative team. With Simon you get the full 360 degrees of ability: he's as comfortable designing a website as he is working on big ideas which require full intergration. Whether online or offline, Simon has a forensic eye for detail and an impressive can-do attitude.
